

MANAGEMENT PLAN WORKSHOP: DESIRED OUTPUTS

1. Guidelines on public consultation
2. Guidance on Management Plan Revision (**Operational Guidelines and Resource Manuals**)
3. Standardised text on planning and statutory legislation for each home country.
4. What elements can be rolled over with no change? (**No need to start from scratch**)
5. How do approach incorporation of SOUV and Attributes? (**OUV Guidance**)
6. Examples of good practice and what doesn't work well (**No one plan can be held up as good practice. Lessons from Periodic Reports and Helsinki Action Plan**)
7. How do link with other plans eg Conservation Area Plans / AONB Management Plans
8. How can streamline / make more user-friendly? (**See summary of advice on SD's last slide**)
9. Key elements that should be focussed on eg. development / stakeholder engagement (**Need horizontal and vertical management system – local/national advisory panel**)
10. Purpose of Man Plans or is it just an exercise in compliance – what are practical benefits / who are they for?
11. Importance of monitoring - whether objectives / actions been achieved
12. Should work programme be most important element?
13. How do update during the Plan period to provide flexibility?
